

BACHELOR OF SCIENCE
MAJOR IN ECONOMICS
FALL 2002

This degree is designed to give the student a broad background in economics rather than concentration in any particular area. The program includes 30 hours of courses, which includes a course in statistics and an optional calculus course. Economics is an excellent background for a variety of careers in business, financial institutions, public utilities, and government.

See liberal arts and sciences general education requirements in the General Education Section of the undergraduate catalog.

All students majoring in economics must earn a GPA of 2.0 or above in their economics course work whether it was earned at ESU or another school.

Required Courses

EC	101	Basic Economics* or	3 hours
EC	103	Principles of Economics I	3 hours
EC	104	Principles of Economics II	3 hours
EC	305	Intermediate Microeconomics	3 hours
EC	306	Intermediate Macroeconomics	3 hours

Required Courses to be selected from: (Select one of the following)

MA	341	Intro to Probability and Statistics	3 hours
MA	380	Probability and Statistics	3 hours
BU	255	Business Statistics	3 hours

Electives: (Minimum of 15 hours)

EC	351	Labor Economics	3 hours
EC	353	Money and Banking	3 hours
BC	361	Current Econ Problems	1-3 hours
EC	375	Comparative Economic Systems	3 hours
