

# EMPORIA STATE UNIVERSITY

## Breidenthal Education Scholars

### APPLICATION

---

Mr. George Breidenthal graduated from Emporia State University in 1972. After beginning his career as a Kansas City Kansas public school teacher, he went on to serve on the Kansas City, Kansas Board of Education. In 2002, Breidenthal put his vision to improve education into action with a generous six-figure gift to establish the Breidenthal Education Scholars endowment. He felt that if more local students could be inspired to become teachers - and to receive their training from Emporia State - then some would return to Wyandotte County to teach future generations. He also knew that financial concerns might stand between these prospective teachers and their dreams.

The Breidenthal Education Scholars Program provides any student from Wyandotte County majoring in Elementary Education through our JCCC/ESU or KCKCC/ESU Distance Partnership Programs and carrying at least 6 credit hours with a \$1,000 annual scholarship, pending available funding. If the number of eligible students exceeds the available funding, awards will go to those with the greatest financial need.
