Students must complete the art therapy and counselor education courses with a "B" grade or better.

Direct art therapy experience under AT-R supervision is required in Art Therapy Internship. The combined experience must total at least 700 supervised hours of internship, which may be divided over two or more semesters at approved sites. Internship often begins Spring or Summer semester of the first year. Students are required to work with at least two different populations for a minimum of 100 hours. A student must be a degree candidate before enrolling in internship.

Length of Program

The M.S. in Art Therapy Counseling is designed to be completed in two academic years including summer internship however, part-time study is possible, which will increase the length of the program. Students with background deficiencies and those beginning the program in the spring semester should plan for extra time to complete degree requirements.

OPTIONS

- 1) Because the curriculum parallels that of a Master of Science in Clinical Psychology and Master of Science in Clinical Counseling, students may choose to complete the additional hours and internship for a second master's degree.
- 2) Additional education hours and student teaching may also qualify students for postgraduate teacher licensure in Art Education or Special Education with the state of Kansas.
- 3) The post-master's Master of Science in Art Therapy is designed for professionals already holding a master's degree in a related, master's – licensed field such as social work or counseling who would like to pursue a dual identity as an art therapist.

MS DEGREE, ART THERAPY (POST MASTER'S)

Prerequisites: In addition to the prerequisites listed above, applicants must have earned their graduate degree in a mental health field (Social Work, Psychology, Clinical Counseling, Marriage and Family Therapy) within the past seven years OR have an active state license in their field.
