Evaluation

Admission to the nursing program is of a competitive nature based on the applicant pool. Fulfillment of the minimum ESU Nursing admission criteria **does not** guarantee admission. Factors given consideration during candidate selection include admission GPA, performance on the TEAS, written interview responses, and potential to complete the program. Final applicants accepted to the program will include the most qualified based on the overall applicant pool. All applicants will receive a notification letter by **April 1st for their admission status in the fall cohort. Applicants for the spring cohort will be notified of their admission status by November 1st.**

Each applicant is considered individually without regard to age, race, color, national origin, ethnicity, religion, gender, sex gender identity, gender expression, marital status, parental status, sexual orientation, genetic information, status as an individual with a disability, status as a protected veteran, or any other factors which cannot lawfully be considered, to the extent specified by applicable laws.

ESU Nursing reserves the right to refuse admission or progression to an applicant or student who cannot meet, with reasonable accommodations, the functional abilities to practice safely and effectively as defined by the National Council of State Boards of Nursing, Inc. (1996).

Be advised that by current Kansas law, the Kansas State Board of Nursing may discipline or refuse licensure to applicants with certain arrests, misdemeanors, and felonies. For more information, contact the state board of nursing in the state where you intend to practice. ESU Nursing reserves the right to refuse admission or progression to an applicant or student who has been convicted as a felon or has otherwise committed offenses inappropriate for a nurse.

NCLEX-RN and Licensure

Be advised that to practice professional nursing, a graduate of the nursing program must apply to take a national licensure examination for registered nurses (NCLEX-RN) and apply for licensure in the state where the graduate wants to work as a professional registered nurse. A graduate is required to pass the NCLEX-RN before state licensure can be granted. As outlined in the Kansas State Board of Nursing Nurse Practice Act (<http://www.ksbn.org/npa/npa.pdf>):

The practice of nursing is subject to state-specific licensure requirements. For state-specific licensure requirement information, contact the state board of nursing in the state where you intend to practice. By current Kansas law, the Kansas State Board of Nursing (KSBN) has requirements that include but are not limited to the following: **65-1115. Licensure of professional nurses; qualifications of applicants; examination; refresher course; renewal license; title and abbreviation; temporary permit; exempt license.** (a) Qualifications of applicants. An applicant for a license to practice as a registered professional nurse shall: (1) have graduated from an approved school of professional nursing in the United States or its territories or from a school of professional nursing in a foreign country which is approved by the board as defined in rules and regulations; (2) have obtained other qualifications not in conflict with this act as the board may prescribe by rule and regulation; and (3) file with the board written application for a license.

In addition, according to the Kansas State Board of Nursing (KSBN), all criminal history must be revealed to and will be evaluated by the KSBN before licensure is granted or denied. Please be advised that by current Kansas law, the KSBN may discipline or refuse licensure to applicants with certain arrests, misdemeanors, and felonies. Possible grounds for such consideration or action may include arrests or being guilty of any felony or being guilty of a misdemeanor that involves an illegal drug offense if the KSBN determines that such a person has not been

sufficiently rehabilitated to warrant the public trust. Also considered by KSBN are patterns of practice and other behaviors exhibiting an apparent incapacity to practice nursing. ***Individuals convicted of a felony crime against person WILL NOT be licensed in Kansas. (Please refer to the current Kansas Nurse Practice Act.***

If an investigation, in the opinion of the board, reveals reasonable grounds for believing the applicant or licensee is guilty of the charges, the board shall fix a time and place for proceedings, which shall be conducted in accordance with the provisions of the Kansas administrative procedure act. (c) Witnesses. No person shall be excused from testifying in any proceedings before the board under this act or in any civil proceedings under this act before a court of competent jurisdiction on the ground that such testimony may incriminate the person testifying, but such testimony shall not be used against the person for the prosecution of any crime under the laws of this state except the crime of perjury as defined in K.S.A. 2019 Supp. 21-5903, and amendments thereto. (d) Costs. If final agency action of the board in a proceeding under this section is adverse to the applicant or licensee, the costs of the board's proceedings shall be charged to the applicant or licensee as in ordinary civil actions in the district court, but if the board is the unsuccessful party, the costs shall be paid by the board. Emporia State University and ESU Nursing do not assume responsibility for any premium, co-payment, or any other costs associated with the insurance coverage. Each student must notify ESU Nursing if, for any reason, a lapse in coverage has occurred. Each student will complete a notarized Student Verification of Health Insurance Coverage form.

CPR certification is required and must remain current during the entire program.

Background Check and Drug/Alcohol Testing- Follow the instructions provided in the acceptance letter.

Learning in clinical settings is an important aspect of the nursing program at Emporia State University. Many health care facilities require information about students engaged in clinical learning opportunities, including, but not limited to: verification of name; address and social security number; personal health information; drug and alcohol testing; criminal background checks; verification of education; listing on any registered sex offender lists; listing on the U.S. Office of Inspector General's Excluded Individual's list; and listing on the U.S. General Services Administration's Excluded Parties List. Both background testing and drug/alcohol testing are required to be in a practicum setting.

While ESU Nursing may assist students in obtaining and gathering information required by a health care facility, the student is responsible for the cost of obtaining such information. The information required to permit a student to participate in a clinical setting is determined by the respective health care facility.

Students with a criminal history and/or arrests for which action is still pending will be evaluated on an individual basis, with no guarantee of admission to the program or a clinical site. Any student who does not consent to required disclosure or background checks, drug/alcohol testing, or does not meet the clinical settings' eligibility requirements, may not be allowed to enter clinical settings. ESU Nursing is not responsible for finding alternative clinical sites. If a student is unable to fulfill the clinical experiences required by his/her program of study, the student may be unable to graduate. ESU Nursing reserves the right to request repeat background and/or criminal history checks as well as drug/alcohol tests at the expense of the student if deemed necessary by the Nursing Assistant Dean.
