

Measure 4: Ability of Completers to be Hired (in positions for which they are prepared)

2024 Employment by Preparation Area

For the purpose of the annual report, the EPP typically uses data supplied by the Kansas State Department of Education (KSDE) to determine the number of first-year teachers in Kansas who are teaching in the content area for which they were prepared. The data, typically retrieved from a report generated each April, is not available from KSDE at this time. EPP leadership have contacted KSDE with the data request and will upload relevant data here when it is secured.

The EPP has uploaded separate evidence to support Measure 4, titled 2024 Career Outcomes Rate.
