Objectives of the Honors College Mentor Program

1. Build cohesion among Honors College students and faculty mentors.
2. Provide support and encouragement to Honors College students as they progress in Honors.
3. Increase the number of students who graduate “With Honors” from the Honors College.

Each mentor should:

1. Once a semester, schedule an activity based on your academic expertise or personal interest (hobby, etc.) for Honors College students, and, with the aid of the Honors College Office, invite all interested Honors College students to attend. (Please remember that the stipend was increased by $500.00 to provide funding for these activities as reimbursement was problematic.)
2. Be available for Honors College students who may want to meet one-on-one for consultation, help, or other relationship-building activities.
3. Attend as many Honors College events as possible and provide assistance as needed.
4. Attend mentor meetings when scheduled.
