Earth Science Minor Electives - ES, GO, or PS courses numbered 200 or above: **9 hours**

Electives should be selected in consultation with an earth science advisor (official or unofficial).

__________ + __________ + __________ + __________

**Additional Information**

The minor in earth science consists of 20 hours of required or approved elective courses in earth science. The minor is a useful way for students majoring in other fields to expand their understanding of science and planet Earth.

This checklist has been created as a guide and is not considered an official document. Students are responsible for checking for required prerequisites in the University Catalog for all courses listed. For further information about meeting degree requirements, consult your academic advisor and the University Catalog.
