STUDENTS WHO WISH TO ENROLL IN DISTANCE EDUCATION COURSES
Courses offered through the Distance Education are identified by “X” or “Z” as the first of two section letters following the course number. The “X” designates graduate level credit and the “Z” indicates undergraduate level credit. Only
The special undergraduate student classification is for individuals without bachelor’s degrees who take a few college courses without the intention of counting the credits toward a degree at Emporia State. A special undergraduate student may not normally enroll in more than ten credit hours in one semester or summer session. Exceptions to this policy may be granted by the university registrar. If, after time, the student is admitted to undergraduate study, the application of all credit earned while enrolled as a special undergraduate student toward fulfilling degree requirements will be determined after the student becomes a candidate for a particular degree.

Persons most frequently seeking the special undergraduate student classification include the following:
1. Those wishing to take a few courses only for the sake of enjoyment or personal improvement.
2. Students who are enrolled in another college (the parent institution) and wish to earn credit at Emporia State to be counted at the parent institution.
3. Persons enrolling in workshops, seminars, summer camps and summer Suzuki institutes. Field based courses are excluded.
4. Students who have been required to withdraw from the university may not be classified as special undergraduate students.

Students who wish to attend ESU as a special undergraduate student, should complete and return (plus a $10 processing fee) a Special Undergraduate Student Application for Admission form to the Admissions Office, Box 4034, 1200 Commercial, Emporia, KS 66801-5087. Requirements for other admission materials such as ACT scores or college transcripts are waived for special undergraduate students. Financial aid is not available for special undergraduate students. Students with questions may call (620) 341-5465 or 1-877-GO-TO-ESU (468-6378).

AUDITING OR VISITING A CLASS
A student who wishes to take a course, but does not need or want the credit counted toward degree requirements, may "audit" that course. The student should obtain an audit card from the Registration Office and secure the instructor's signature during enrollment. Additional information is available in the Office of the Registrar. Fees for auditing a class are the same as if enrolled for credit.

COURSES REQUIRING PERMISSION TO ENROLL
Courses such as independent study, projects, research, thesis, etc., may require permission of the department chair or instructor before students enroll. Students must go to the appropriate department and secure a "Permit to Register" form to present to the Registration Office along with the Advisement Form. Students may earn credit by examination in a number of departments of the university. Information in this regard should be obtained from the department concerned or the Office of the Registrar.

PASS-NO-CREDIT GRADING
A student may enroll in certain courses under the pass-no-credit option. This means that the grade which he/she receives for the course will be either "P" for passing or "N" meaning no credit.

This option is limited to certain areas and a student may not take a course in their major, minor, or teaching field under this option. Required general education courses are also excluded from this option.

Grades in certain other courses are recorded as pass or no credit for all students enrolled. Such grading practices are in courses designated by the department and approved by the university.

Interested students should inquire in the Office of the Registrar concerning full details of these plans.

INCOMPLETE GRADE POLICY
Except for graduate research, thesis or the equivalent, all incomplete work must be finished by the end of the following full semester (summer sessions are not considered a full semester for purposes of this deadline). Individual instructors may establish earlier deadlines or grant one semester extension for completion of the work. Students who do not complete the unfinished work by the end of the following semester or the established deadline will have the grade of "F" entered on their transcript and will be required to re-enroll to earn credit in the course. COMPETENCY EXAMINATION REQUIREMENT

All students seeking a baccalaureate degree from Emporia State University must demonstrate competency in reading, writing, and mathematics.

Teacher candidates seeking a degree in elementary, secondary, middle level, or PK-12 teaching field fulfill this requirement by passing the Pre-Professional Skills Test (PPST) or the Collegiate Assessment of Academic Proficiency (CAAP) before admission to the teacher education program. A candidate who passes two test areas but scores below the cut-off score in one test area-mathematics, reading, or writing-may be considered for the PPST or CAAP Window. Window criteria are as follows:

- Candidates must have taken the PPST once or the CAAP once.
- Candidates must be within two points of the standardized PPST or CAAP cut-off score.
- If the above two criteria apply, then candidates may use alternative ways (see non-teaching degree options 2-6 to the competency examination requirement listed below) to meet the Phase I requirement for the Teacher Education Program at Emporia State University.

Teacher candidates should take the examinations during their sophomore or junior year. Standards for passing the examinations have been established by the Council on Teacher Education and are not necessarily the same as those for non-education majors. There is no limit to the number of times a candidate may take the examinations.

Non-teaching degree students have several options for fulfilling the competency examination requirement as listed below.

1. Students may pass the reading, writing, and mathematics sub tests of the Pre-Professional Skills Test (PPST), the Collegiate Assessment of Academic Proficiency (CAAP), or any other nationally standardized examination for which there is a published concordance with the PPST or CAAP. If the standardized examination does not have a reading component, the student's ACT scores will substitute for the CAAP.

2. The writing portion of the requirement may also be fulfilled in any of the following ways:

- Earning a grade of “A minus” or higher in EG 102 (Composition II) in a resident, on-campus class.
Earning a grade of “A minus” or higher in a course equivalent to EG 102 from another accredited university or community college.

Earning a grade of “B” or higher in EG 104 (Honors Composition II) or in EG 301 (Advanced Composition).

Receiving credit by examination for EG 102.

Meet the passing score requirements for ESU on the Compass, C-Base, GRE, IELTS, G-MAT or TOEFL.

Official scores must be on file with ESU in order to accept these forms of test exemptions.

3. The mathematics portion of the requirement may also be fulfilled in any of the following ways:

Earning a grade of “A minus” or higher in MA 110 (College Algebra) in a resident, on-campus class.

Earning a grade of “A minus” or higher in a course equivalent to MA 110 from another accredited university or community college.

Earning a grade of “C” or higher in any approved general education mathematics course beyond MA 110.

Receiving credit by examination for either MA 110 or MA 161.

Meet the passing score requirements for ESU on the Compass, C-Base, GRE, IELTS, or G-MAT. Official scores must be on file with ESU in order to accept these forms of test exemptions.

4. The reading portion of the requirement may also be fulfilled in any of the following ways:

Receiving a reading score of at least 18 on the ACT Assessment.

Receiving an equivalent score on any test for which there is a published concordance with the ACT.

Earning a “B minus” or higher (or credit by examination) in each course used to meet the general education requirements.

Meet the passing score requirements for ESU on the Compass, C-Base, GRE, IELTS, or G-MAT. Official scores must be on file with ESU in order to accept these forms of test exemptions.

5. International students may take the Test of English as a Foreign Language (TOEFL) as an alternative to the reading and writing exams. The passing score is the cutoff value (now 550) that the Institution uses to allow International students to enter graduate school without further testing of their language skills. To fulfill the mathematics requirement, students must earn a grade of "A minus" in MA 110 (College Algebra) or a grade of "C" or higher in any approved mathematics course beyond MA 110, College Algebra.

6. Those students who are unable to fulfill the requirement in any of the above ways and who have taken either the CAAP or the PPST and are not an education major may attend the reading, writing and/or mathematics labs. In the lab, students will be given an opportunity to practice necessary skills and pass a lab test as a substitute for the CAAP/PPST. Passing scores in lab tests fulfill the competency exam requirement.

Students who qualify for exemption options 2, 3, 4, or 5 above must complete and submit the “Application to Certify Completion of Competency Examination Requirements” form either online or at the Assessment & Teaching Enhancement Center (ATEC) located in Morse Hall, room 23. This form MUST be approved by ATEC for the exemptions to be official. We recommend that students contact ATEC prior to their senior year for an evaluation of their competency requirement status. Students who do not successfully complete the competency examination requirement, will NOT receive their degree at graduation.

Please contact the Assessment & Teaching Enhancement Center (ATEC) at 620-341-5103 for questions. Information regarding the above is also found at www.emporia.edu/atec.
