Wednesday February 19th
CCR Committee Meeting

Present:
Thomas, Charlotte, Elizabeth, Justin, Cory, Brady, Kate, Josh, Jarrod, Chase, President Countryman, Vice President Germann
Absent:
Tyler

Josh talked a lot about the learning commons that are throughout Emporia State University and how ESU is looking to better them. He made references to the UMKC learning commons and how they not only are used for educational purposes, but they also serve as a general gathering area for anyone on campus. This is the idea that ESU would like to implement in campus buildings.

The bicycle letter of intent is due February 25th which will express the interest in the bike system that CCR is trying to implement. They are discussing issues like a check out system, and also what they would do in case of lost or stolen bikes. They are continuing to meet with faculty and staff from ESU and are in contact with the campus lawyer who may be at a CCR meeting in the near future to answer any questions.

Hornet Spirit Squad is still in the process of brainstorming activities for this semester. The ideas range from "carrot idea" to car smashing and arm wrestling tournaments. No ideas have been finalized but something with Model United Nations might be in progress.

Off Campus housing might refrain for a little while to help with the Transportation committee because there is a higher demand for attention.

Next week, we will be talking more about the bike initiative and the specifics that need to go into the initiative to get the ball rolling.
