The Kansas Science Teacher: Journal of Mathematics and Science Teaching is published by the Emporia State University Science and Mathematics Education Center, the College of Liberal Arts and Sciences, and the Teachers College. The journal is dedicated to the improvement of science and mathematics teaching and the promotion of interest in mathematics and science. The Kansas Science Teacher (ISSN 0892-600X) is published irregularly as a non-profit professional publication serving teachers and individuals interested in advancing the teaching of science and mathematics worldwide.

SUBSCRIPTIONS: This journal is sent to teachers currently listed by the KSDE as teaching science and mathematics in Kansas public and private schools. Others may request issues while they are available. For a current copy, or to add or drop from the list, write to: Editor—Kansas Science Teacher, Box 4075, Emporia State University, Emporia, KS 66801.

PUBLICATION POLICY: Individuals interested in science, science education, mathematics, and mathematics education at any academic level may submit manuscripts for publication. Preference is given to papers of specific interest to educators in Kansas. Student submissions are welcome. All non-solicited manuscripts should be sent to the editor. One or more reviewers with expertise in the topic area will review the manuscript. Notification of acceptance or rejection will be sent as soon as possible after the review process. Approved items will be published as soon as possible but this is dependent on funding. All manuscripts should be typewritten, double-spaced on one side of a sheet of standard white paper, and submitted in triplicate. Consult a recent issue of KST for questions of manuscript style and citation. Text should be sent on a disk in a Word, Wordperfect, or RTF format. Tables, figures and photographic illustrations may be photocopied with one original for quality printing and do not need to be on the disk format. Send manuscripts and direct other questions to the editor at the address above.

COPYRIGHT: Except for maintaining KST back issues in stock and for viewing online, copyrights revert to the author(s) upon publication. Queries to use material in the KST should be directed to the author(s) for use beyond what is permitted by Sections 107 and 108 of U.S. copyright law. Major articles include the affiliation or current address of the major author(s). Articles reprinted from elsewhere may not be available online where the original copyright was restricted.

LIABILITY: The use of materials presented in this journal is directed to qualified teachers. The Kansas Science Teacher cannot assume responsibility for uses made of its published materials. Anyone planning to use any materials published in the KST should make safe choices and use procedures that meet local, state, and federal safety guidelines. Ideas expressed in the KST are those of the author(s), reviewer(s) and/or editor(s) and do not reflect the position of the Science and Mathematics Education Center or Emporia State University.

BACK ISSUES: Single copies of back issues are $5.00 each postpaid (U.S. currency) to U.S. addresses; add $5.00 per issue if overseas airmail is requested. Out-of-print volumes are photocopied; a few recent volumes are on regular stock while supplies last, thereafter photocopied. Back issues (check payable to “SMEC Sales”) are available from: Kansas Science Teacher, Box 4075, Emporia State University, Emporia, KS 66801.

REVIEW MATERIALS: Publishers with printed or audiovisual material seeking reviews should send material to the Editor, Kansas Science Teacher, Box 4075, Emporia State University, Emporia, KS 66801.
