KANSAS SCIENCE TEACHER

The Kansas Science Teacher is published annually by the Science and Mathematics Education Center of Emporia State University. The KST is committed to improving science and mathematics teaching and to bringing “hands-on” science and mathematics experiences into every student’s classroom.

Cathy Yeotis
Wichita State University

PUBLICATION POLICY

The Editorial Board of the KST welcomes original articles and features that address the goals of improving K-12 science and mathematics teaching, and bringing hands-on experiences into the science and mathematics curricula. All manuscripts must be typewritten, doubled-spaced on one side of a sheet of standard white paper, and submitted in triplicate. References should be in a style consistent with the author’s discipline or should follow the most current edition of the APA Style Manual. No author identification should appear on the manuscript; authors’ names should appear on a separate title page. If your manuscript was done on a computer, please include a copy of your manuscript on a disk with a note regarding the type of computer and the word processing program that was used. Approved items will be published as soon as it is practical. The deadline for submitting articles is the second week of November. All manuscripts should be submitted to the Editor listed above.

SUBSCRIPTIONS

The Kansas Science Teacher is mailed free upon request. If you are not already receiving the KST, please write to us and your name will be added to our mailing list. The funding for this publication is provided by Emporia State University’s College of Liberal Arts and Sciences.
