$70 per day or
$100 for both days
(Includes lunch & refreshments.
Optional housing in ESU residence halls available; contact June at 620-341-5407.)

Graduate credit is available

July 21 – Topics

Working with Students in Poverty
Presenter – Carol Hailey, USD 512 Shawnee Mission
Incorporating the research of Dr. Ruby Payne, Dr. Robert D. Barr, and Robert Marzano, this workshop offers strategies for working with students in poverty. Participants will leave the session with strategies for structuring the classroom, providing discipline and maintaining high academic expectations for some of our most at-risk students.

Preparing Students for College Testing
Presenters – Carol Hailey & Donna Hobbs, USD 512 Shawnee Mission
Students gain confidence and improve scores when prepared for college entrance exams (PSAT, SAT, ACT) and the AP Exams. This workshop will equip participants with skills, strategies, and resources for better preparing students for these high-stakes exams. An overview of a curriculum and activities used in an ACT/SAT Test Prep course will be shared.

July 22 – Topics

Using Robotics to Wake Up AVID Students about STEM
Presenter – Dr. Matt Seimears, Assistant Professor, Science Education, ESU, with Rachel Houston, Stephen Jowers and Erin Peterson, ESU students
This workshop is designed to help teachers bridge the gap between AVID students and the science, technology, engineering, and mathematics (STEM) competencies. In this workshop, teachers will develop a highly interactive lesson plan, featuring a Mission to Mars robotics project, which will enhance the STEM curriculum while integrating the material with standards-based content and instructional strategies.

Working with Undocumented Students & College Admission
Presenters – ESU staff

Roundtable/Best Practices for Classroom Teachers
Facilitated by AVID and non-AVID faculty
