The results of the survey (54 completed) were overwhelmingly positive. Based on the results, the HPER Graduate Committee identified the following areas for improvement and growth.

i. More options/offerings of elective courses
ii. Increased coordination among the instructors of PE738 Advanced Technology
iii. Increase the sense of community among the on-line students and instructors
iv. Explore ways to enlist the help of graduates of the program in promoting the program to others (many indicated a willingness to do so).
