MS Project Online Component - Rubric/Scoring Guide

Student Name: _________________________ Advisor’s Name: __________________________
Reviewed By: ________________________ Committee Name: ________________________

This is an evaluation by the Advisor and committee of the Instructional Design process/activity
that you did during the semester (what you actually did and how you did it). Also, this is your
involvement with your Advisor and the committee.

This section is scored separately from the other parts of the final project. It is completed at the
end of the course.

Thus, you could have an excellent Client Report, Client Brochure, and Client Presentation
Flash® Digital Movie, but the project activity might be judged lower. This area is highly
subjective.

There are no forms to fill out or documents to send.
