2A.07 Dean’s Advisory Council

The purpose of the Dean’s Advisory Council is to advise and report to the dean and faculty, as appropriate, on matters of interest to the faculty of the College. The Council will meet once a month and be responsible for completing the following activities:

- Advising the dean concerning college policies and practices.
- Reviewing college, department, and program policies and procedures which affect the faculty; identifying policy and procedural voids; and advising the dean of policies and procedures which should be developed or revised.
- Reviewing professional development activities; identifying professional development needs; and developing recommendations for improvement.
- Submitting a summary of recommended action taken at each meeting.

The Members of the Dean’s Advisory Council are elected by the faculty of each department and include:

- Department of Counselor Education and Rehabilitation Programs - 2 members.
- Department of Early Childhood/Elementary Teacher Education - 2 members.
- Department of Health, Physical Education, and Recreation - 2 members.
- Department of Instructional Design and Technology - 2 members.
- Department of Psychology and Special Education - 2 members.
- Department of School Leadership/Middle and Secondary Teacher Education - 2 members.
- Jones Institute for Educational Excellence - 1 member.
- Up to four faculty members may be appointed by the dean.
- Faculty representative of ALC - 1 member.
- The Dean of the Teachers College.

Council members will serve a 24-month term. Members may be re-elected or reappointed to an additional term. A chairperson will be elected from council members. Each council member will serve as a representative of The Teachers College rather than as a representative of a particular program or department. He or she will be responsible for consulting with appropriate
persons regarding items to be placed on the agenda for discussion and for reporting to and consulting with department chairs and faculty members about matters being deliberated that affect department operations.
